# CHEERLEADING

## WHY CHEERLEADING?

Allstar cheer is a fast paced and athletic sport. Made up of a mixture of Gymnastics, Dance, & Acrobatics. Cheerleading is a fantastic sport to get your kids off their screens and into Australia's fastest growing sport.

Cheerleaders train all year round and are taught to increase their mental & physical strength, flexibility and coordination whilst having fun and making friends. Our Jungle Cats find a positive social outlet where they can connect with kids their own age with similar interests.

# DANCE

## WHY DANCE?

Even though another career path may ultimately be chosen, in dance children learn the cooperative effort necessary to produce a high quality work of art. Every child benefits from safe, quality dance training. Long-term learnings go far beyond practical applications in dance. Dancers enter society with the ability to maintain the uncompromising high standards nurtured during their dance training. Creative thinking skills are developed through dance, as well as learning the value of discipline, commitment and work ethic. Self-confidence develops as young people overcome challenges to master new goals, learn to apply themselves and accomplish any task put before them.

Dance teaches children about music, rhythm and beat. Students also have a better understanding of spatial awareness and learn to think with both sides of their brain. All these skills enhance a child's academic performance, as well as their physical well-being. Dance keeps you fit! Dance teaches the importance of movement and fitness in a variety of ways through a variety of disciplines. Dancers also learn to coordinate muscles to move through proper positions.

Dancing is a great activity to pursue at almost any age provided you are in proper health to handle the rigors of dancing for life. All in all, dance is a great way to build valuable social skills. Much more importantly however, it is an opportunity to teach your children the importance of being part of something larger than themselves. Dancers learn to take turns, to share attention, and to cooperate with others as they work within a group. These life lessons are part of the appeal of dance classes to parents around the world.

# AEROBICS

## WHY AEROBICS?

Sport Aerobics is an athletic and competitive sport that has a singular connection of aerobic choreography and gymnastics elements. This sport generates a chance for kids, and teens to compete in a sport that demands less risk than gymnastics while keeping the artistic quality and fun of aerobics. Sport aerobics is an interesting, competitive sport that demands performing active movement patterns to fast paced music. It is a sport that is less strenuous, in comparison with gymnastics but it offers the fun and upbeat characteristics of aerobics.

At Jungle Cats all of our aerobics classes compete at the School Aerobics competitions. We offer primary, secondary and Old skool (adult) teams. We also offer solos and duos if an athlete has the confidence to compete on their own. Our competition season starts in Term 4 as the first competition is in March. Tryouts are held in the September school holidays and we require commitment to the teams as soon as Term 4 starts. At each competition all teams are required to meet a minimum score to move onto the next round, i.e States then onto Nationals. Commitment in Term 4 2019 and Term 1 2020 are crucial to ensure the competition season is not cut short.
